Adaptive Multimedia Retrieval: User, Context and Feedback

MARCHAND-MAILLET, Stéphane (Ed.), et al.

**Abstract**

This book constitutes the thoroughly refereed post-proceedings of the 4th International Workshop on Adaptive Multimedia Retrieval, AMR 2006, held in Geneva, Switzerland in July 2006. The 18 revised full papers presented together with 2 invited papers were carefully selected during two rounds of reviewing and improvement. Also included are two invited contributions that have been intended to open on less-addressed topics in the community, as it is the case for music information retrieval and distributed information retrieval. The papers are organized in topical sections on ontology-based retrieval and annotation, ranking and similarity measurements, music information retrieval, visual modeling, adaptive retrieval, structuring multimedia, as well as user integration and profiling.

Adaptive Multimedia Retrieval: User, Context, and Feedback

4th International Workshop, AMR 2006
Revised Selected Papers

Springer
# Table of Contents

## Ontology-Based Retrieval and Annotation

A Method for Processing the Natural Language Query in Ontology-Based Image Retrieval System .................................. 1  
_Myunggwon Hwang, Hyunjung Kong, Sunkyoung Baek, and Pankoo Kim_

SAFIRE: Towards Standardized Semantic Rich Image Annotation ...... 12  
_Christian Hentschel, Andreas Nürnberg, Ingo Schmitt, and Sebastian Stober_

Ontology-Supported Video Modeling and Retrieval ......................... 28  
_Yakup Yıldırım and Adnan Yazıcı_

## Ranking and Similarity Measurements

Learning to Retrieve Images from Text Queries with a Discriminative Model .......................................................... 42  
_David Grangier, Florent Monay, and Samy Bengio_

A General Principled Method for Image Similarity Validation .......... 57  
_Frédéric Cao and Patrick Bouthemy_

Rank-Test Similarity Measure Between Video Segments for Local Descriptors .................................................. 71  
_Alain Lehmann, Patrick Bouthemy, and Jian-Feng Yao_

## Music Information Retrieval

Can Humans Benefit from Music Information Retrieval? .............. 82  
_Frans Wiering_

## Visual Modelling

A New Approach to Probabilistic Image Modeling with Multidimensional Hidden Markov Models ................................. 95  
_Bernard Merialdo, Joakim Jiten, Eric Gabmar, and Benoit Huet_
The Potential of User Feedback Through the Iterative Refining of Queries in an Image Retrieval System .......................... 258
  Maher Ben Moussa, Marco Pasch, Djoerd Hiemstra, Paul van der Vet, and Theo Huibers

Author Index ................................................................. 269
